ET NavSwarm Weekly Progress Report

Goals for last week:

- Create a formal meeting time for seniors.
- Familiarize team with bots.
- Find a general direction to take the design with.
- Create Gantt chart for both semesters (emphasis on fall).
- Begin creation of sub-teams and meeting times for sub-teams.
- Meet with Kevan to obtain access to S107.
- Iron out details with team members about 10/20 open house presentations.
- Decide grading scheme
- Decide if team wants to implement three strike policy.

What got done:

- Most team members have been given access to S107, those that were not able to attend the meeting with Sheldon have been instructed to contact Kevan Carpenter.
- Sub-teams and sub-team leadership has been created.
- Team will implement 3 strike policy, team will sign if approved at 10-11-18 meeting.
- Grading scheme decided.
- Team should have enough familiarization with bots after Jaiden's quick tutorial to begin.
- A few sub-teams have already begun meeting and are starting the design process.

Goals for this week:

- All sub-teams create formal meeting times.
- Design process begins with the bot-redesign teams.
- Software teams continue to learn how to program the bots.
- Finalize details for Dean's Office and Parent's association presentations.

Goal for the rest of the year:

- Sub-team leads should email or talk to Shaun, at least once per week. Latest Wednesday evening or Thursday morning for progress report purposes.

Issues:
